The sympathy of the community goes out to the Howard Dyke family, whose home was badly damaged by fire Wednesday evening. They had just finished putting on new siding which looked very nice. GREENWOOD CITY

Mrs. Collista Morgan, Corres. —

October has been a good month. The days were bright-leaved and warm, the nights cool but not really cold. I have enjoyed it for I have stood by the pond, feeling the fresh-ness of the air and watched the rings interlock and form patterns on the quiet water. During various hikes I have looked at the earth un-der my feet and noted the little crawling things rush under plants or weeds. I have watched the clouds and sky and the changing light. I have sat beneath the balsam-firs, their tops so frosted with resin that they glisten in the sun. I have seen the arthritic bumblebee on an early morning before the warmth of the sun hit him. I have walked under the cedars and pines, squirrel territory. They chattered among themselves nearly voiceless trying to stop my progress through their weath-erly domain. I watched the ground plants as they faded, darkened, dried, and lay down. I saw the mountain leaves as they changed bit by bit from green to gold; the sumacs and maples to clear deep shades. Thus October has moved on. To quote Samuel Taylor Coleridge, "Why is it so many of us persist in thinking that autumn is a sad season? Nature has merely fallen asleep, and her dreams must be beautiful if we are to judge by her countenance."

After a long time Ruth has again joined me for some hikes. One day we hiked the Moriah Brook Trail with Barbara, Ruth's daughter, and Fay, my sister-in-law. We cooked our lunch out and enjoyed a de-lightful day.

This week we went to the hill-lands of Sunday River to see the beauty of Bill Branch. There were gorges with high banks so that in places the river could be seen far below but not reached. It was a stream of mystery, rendering soft music; songs of the wild at each bend.

We had left the car beyond the twin bridges and followed an old road. It was one of those days when the sunshine would fall softly

over the wooded hills, bringing out the colored beauty then maybe in moments hide itself, leaving us wait-ing with camera poised until it peep-ed out again. The precise moment was important to capture a falls or the reflection of yellow leaves; a tribute of memory.

We ate our lunch while sitting on a granite slab near mid-stream where we could watch this river and see autumn flowing past. Overhead clouds were traveling from horizon to horizon, like white argosies afloat. When one of them blanketed the sun we felt autumn. I remember the little brooklets as I looked upstream, rushing wildly between boulders, winding snake-like beneath the shad-y woodland forest.

Beyond me floated a leaf cup con-taining a drop of water flashing in the sunlight like a tiny jewel.

Looking through the clear water we could see the gray, green, and brown submerged rocks.

I dabbled my fingers in the water

and found it cold and refreshing. I had no desire to take a swim.

As I stood up to climb to the road, I noticed a crack starting ac-ross the slab on which I had been sitting. I wondered how long it would take for the wash of water, the freezing and thawing, to break this piece of granite. When we left our picnic spot the sky was blue, the water sparkling, the breeze gentle, and the moss at our feet green and soft.

But after spending a few hours with the upland river in its many moods and autumn's staining over the hills we felt that we must re-trace our path toward home.

This surely had been a day for walking, scuffling through drifts of fallen leaves, to find the magic that autumn weaves across the land.

Letters to the Editor
October 13, 1973

To the Editor:
Many letters have appeared in recent newspaper columns citing the Kennebec Light & Power District as a prime example of the desirability of Public Power because of K. L. P. D. low residential rates.

As a person who has spent most of my years in both Private and Public Power, I find many such statements are incomplete and less than factual.

The original Kennebec Electric Department, a division of the Town of Kennebec, did generate and distribute electricity on a very small scale. As demand grew it was apparent that new generating facilities were needed and such generating plants would be expensive to the taxpayer. An alternate solution was necessary.

Kennebec citizens with an enabling act by the State Legislature voted to form the present Kennebec Light & Power District and as before under Maine Public Utilities regulation, the management of the District is supervised by a five man Board of Trustees, elected by the voters and serve without pay.

After a survey of all the factors by a competent engineering company, it was found that Kennebec Light & Power District could not add to its existing hydro plants which were obsolete or build new generating plants and secure a source of power for less than what it could be bought from a private company (The Central Maine Power Company).

Now for the reasons why Kennebec Light & Power District has low residential rates:

K. L. P. D. has no expensive generating plants to operate and maintain, also no long transmission line losses or maintenance.

K. L. P. D. buys its electricity at a reasonable rate from CMP Co., which has not increased its wholesale rate to us in 13 years. Also, K. L. P. D. distributes this power in a fairly compact area with approximately 23 customers to the mile.

It is governed and operated by experienced employees and business men who volunteer their services.

There is no liability for State or Federal Income Taxes and no sales tax.

There are no interest payments to make since the District has no outstanding stocks or bonds.

I could write a small book on the pros and cons of public and private power and can see no possibility that PAM can reduce the cost of electricity to citizens of Maine and absolutely certain that PAM cannot.

-Mrs. Louise B. Chapman, Corres.-

As the last days of the fall season bless us with a beautiful Indian summer, it's hard to think of the days ahead. In just a couple of days however we'll be up against another time change, one of the first sure signs of winter. In another week, Halloween will be just a memory, and Thanksgiving will be uppermost in our minds. As we get our winter coats out of storage, we can also see our animal friends putting their's on. We all, in our own ways are preparing for the days ahead.

My sincere apologies to my Grandfather, and especially to Sally, for calling her "the big grey horse," when in actuality she is a big "roan."

Speaking of horses, the neighborhood has two new additions. Christine Smith has a new black stallion, and Charles Mason has his work horse, Cap, back after it spent the summer in Bryant Pond where Harry Howe used him for haying.

Alberta Angevine accompanied her

daughter, Judy Coolidge, and Miss Merrill's third grade room from Crescent Park on a field trip to the planetarium at the University of Maine, Portland campus. Mrs. Coolidge is a practice teacher in Miss Merrill's class, and Mrs. Angevine went along as a chaperone for the children.

The Mason boys are gathering firewood to sell again this year.

Mary Chapman is still hoping someone has seen or knows the whereabouts of her black and white beagle "Moji". He is very friendly and will come when you call him.

Carol Mason had the misfortune to get hurt while taking her horse into the barn one day last week. She needed several stitches on her forehead, but she is fine now.

Remember, drive carefully on Halloween night - those little ghosts and goblins aren't always as careful as they should be, and they could be yours!

TELSTAR J.V.'s WIN SIXTH STRAIGHT—DEFEAT LISBON 43-6

Led by the fine running of Ricky Mills, who gained 136 yards on 11 carries, and the passing of quarterback Duffy Ellsworth, who completed six of 10 passes for 173 yards and three touchdowns, the Telstar J.V.'s raced to a 43-6 victory over Lisbon Tuesday afternoon.

In the first quarter, on the third play from scrimmage, Ellsworth threw a 67 yard scoring strike to end Scott Holt for the initial score of the game. Ellsworth booted the first of his five straight extra points for a 7-0 lead. Following a poor Lisbon punt Chris Olson slanted off tackle for three yards and the score, with Ellsworth adding the point after for a 14-0 first period lead.

The second quarter scoring was done rather quickly as Ellsworth again hit Scott Holt on a 23-yard pass. Then following the ensuing kick-off, the Rebel defense threw Lisbon back to their seven yard line where defensive middle guard Bruce Swan broke through and blocked a Lisbon punt. On the following play Duffy Ellsworth quarterback-sneaked for the T. D. and a comfortable 20-0 halftime lead.

The third quarter score came at the four minute mark as Ellsworth hit Holt with a 14 yard jump pass for a 35-0 lead. Key play in the drive was a fine 20 yard run by Ricky Mills on a third and 14 situation.

Reserve quarterback Mike Dunn replaced Ellsworth at this point and led the Rebels to their final score when fullback Ricky Mills galloped 63 yards to paydirt. On the extra point attempt a 15 yard penalty forced the Rebels into a passing situation as Ellsworth connected with Holt for the twopointer and 43-0 score.

The lone Lisbon score came with less than four minutes remaining as quarterback Norm Smith threw a 20 yard touchdown pass to end Steve Roop.

The defensive stalwarts led by Swan, Mike Wight, David Webster, Jack Taylor, Ernie Chapman, and Peter Bean held Lisbon to minus yards rushing in a fine display of tough defensive play.

So far this year the J.V.'s have scored 181 points and the defense has allowed only 24 points. The J.V.'s entertain Livermore next Monday at 7:30 for their final game.

ANDOVER ELEMENTARY SCHOOL TO COLLECT FOR UNICEF

This Halloween, students from Andover Elementary School will be collecting for UNICEF. Seven students will be collecting and each house in town will be visited only once by a student from the school. We will divide the town into sections and each student will take an area. This is being done so that the collection will not be too much of a burden to the citizens.

The students collecting will be from Mrs. Morgan's and Mr. Johnson's rooms. They are Timmy Hall, Mindy McElmurry, Colleen Reilly, Daniel Reilly, Steve Swasey, Karen Swan and Jeff Wardwell.

We understand some other children may be collecting for their church group, but the above children will be the only ones collecting for A. E. S. We will very much appreciate all donations and co-operation and so will children all over the world.

Mrs. Gladys Redmond, Portland, visited Mrs. Sylvia Conroy over the week end.

United Methodist Women will meet on Thursday, Nov. 1, at the home of Mrs. Myrtle Lapham. The program is in charge of Mrs. Sarah Stevens and Bible study is planned.

WOODSTOCK C. OF C. HOLDS OCTOBER MEETING

The October meeting of the Woodstock Chamber of Commerce came to order at the firemen's hall with six members and one guest present. Minutes of the last week were read and approved. Treasurer reported \$179.77 in the checking account and \$146 in the petty cash fund.

Mr. Stowell from Onyx Printing Company, South Woodstock, presented his mock-up for a Town of Woodstock brochure. It was decided that between now and the next Chamber of Commerce meeting the pamphlet committee would get together and evaluate the various options open to the Chamber and try to form a proposal as to how and where the work should be done.

The subject of postcards depicting a scene or scenes of Woodstock was again raised. It was stated that a minimum order consists of 3,000 copies of a specific picture, one cannot order for example four different postcards with a total number of 3,000. Also cost of the postcards must be covered before or within 30 days of printing not as the cards are sold. The President showed and informed the group that the Chamber is

The suggestion was raised that a committee be formed to co-ordinate and initiate the building of a skating rink near the elementary school. It was suggested that the committee members be two from the Chamber, two from the Conservation Commission, two school members (either from the school staff or the Board), a contractor, Mrs. Cleo Billings and perhaps two citizen members. Richard Felt and Tom Thurston were duly nominated and voted in as the Chamber's representatives to this committee. They will now contact other individuals and see if they would be willing to serve on the committee.

The President read a letter he had written to the Department of Transportation re: the installing of a light at the sharp turn by the post office.

It was mentioned that there is slight representation on the Chamber from either North or South Woodstock and an invitation is hereby extended to all residents of these two areas to come to our meetings and avail themselves of the opportunity to seek action on improving their communities. The next meeting will be held on Nov. 14.

Editorial Comment

RE: Referendum Questions

Maine voters will be asked Tuesday to approve the "Power of the People" initiative. Periodically someone has the great idea that public ownership of utilities will result in more efficient, less costly service to our mind, "it just ain't so".

While at times we have had great fondness for the utility monopolies, it has been found that the whole thing is more efficient and less costly than many State agencies. No matter how PAM programs may postulate, they would in our opinion, another agency of the State: seven members appointed by the Governor, approved by the Executive Council.

Of course, to sweeten the pot, some brilliant legislator put in the PAM would pay 1/20 of a cent per kWh sold, to the state's general fund, of which 75% would be used to support schools. All the time we thought they were trying to generate cleaner electricity, and all the while they wanted to support education. PAM may have its good points worthy of support, but not from here.

The lottery proposal has some of the same faults as PAM. One which is the setting up of a quasi agency of five members. The board decides what type of lottery will be held. One provision explicitly approved by the legislature is one of its more piquant moments: excerpts from Maine State Income Tax any prize received from the lottery. Wonder why that is?

It would be income wouldn't it? It is our opinion that the state's voters would be buying a "pig in a poke" without even the saving grace of a "horse" if this were approved. The question of land acquisition for State Parks might be a little touchy. We think the voters should take a hard look at this, because a study the outstanding bonds of the State amount to more than \$2.58 per capita.

The proposed constitutional amendment to regulate municipal borrowing by the legislature, while possibly desirable in some people's making, won't get our "yes" vote. Presently towns can borrow up to 1% of the last locally assessed value.
